GREEN RIVER BASIN - WEEKLY ACTIVITY UPDATE

Entek Energy Limited ("Entek" or the "Company") provides the following update on the Company's Green River Basin operations.

- ⚙ Butter Lake 32-10 – The well has reached a depth of 5,964' TVD. Current operation is drilling ahead to the 7" casing point. Numerous shows as expected have been seen in this section of the hole and will be evaluated with wireline logs. After reaching the total depth for this section, logging, setting and cementing the 7" casing the well will drill out into the primary target zone, the oil prone Niobrara Formation.**
- ⚙ Battle Mountain 14-15A - The workover rig is presently over the Battle Mountain 14-15A well. Perforation of the liner between 6194' and 7638' over the oil prone Niobrara Formation will occur in the next 24 hours. Present operation running in hole with perforating guns. After perforation and swabbing the well will be flow tested for a period of around 3 days before being put on production.**
- ⚙ Robidoux 13-15T - Operations at Robidoux 13-15T will be conducted after flow testing is complete at the 14-15T well.**

ENQUIRIES: RUSSELL BRIMAGE - CHIEF EXECUTIVE OFFICER

Competent Person's Statement:

Information in this report that relates to Hydrocarbon Reserves and or Resources is based on information compiled by Mr Russell Brimage, Chief Executive Officer of Entek Energy Limited who has consented to the inclusion of that information in the form and context in which it appears. Mr Brimage has over 30 years experience in the application of engineering to the petroleum industry in oil and gas exploration and production, both in Australia and internationally, as either an employee or consultant to oil companies operating in the upstream petroleum industry. Mr Brimage directs the Company's operations with the help of various professional consultants, appropriately qualified and experienced in their respective fields within the upstream petroleum industry. He is also an Associate Member of the Society of Petroleum Engineers.

Note: the weekly activity updates are only related to specific field activities in the GRB and are not an all encompassing review or update of the Company's other activities including corporate, GoM, or otherwise.
